Universal Peace Society.

Phila^{a} 12th mo 14. 1867

Wm Lloyd Garrison
Boston Mass

312 My dear Friend:

With my whole heart I welcome thy return to America & I feel deeply grateful that thee has been preserved throughout thy eventful journey. Words cannot convey all I feel. Please accept thanks for the paper from Eng. & I rejoice over every word spoken as thee once said to me at Longwood "Blessings on the Speech Makers"

Now shall we put the harness on thy good shoulders? During the last week in Jan^{y} the Universal Peace Society will hold a series of meetings in Washington D.C. & expect one evening meeting in the House of Rep. We would dearly love to have thee speak on that occasion for I know the cause is near thy heart & we have great encouragement for good meetings.

Then on thy way through Philadelphia there are two bids for thee. One the Penn^{a} Peace Society, for which the Meeting houses of Friends have been opened, would like a lecture. The other the Penn^{a} Equal Rights Assn will have a series of meetings & could arrange one for thee at that time.

Being myself in the Ex Com^{e} of these Societies I

can say that the matter has been formally presented received unanimous approval & while the funds in either, do not warrant offers of pecuniary aid at least, not to much extent, the payment of all expenses is freely tendered. Did I not feel that I know thee on this subject I would excuse myself from writing, but thy spirit warms & encourages me. Of course we are open to hear any suggestions, but I can freely say that I believe these two movements are of thee & for thee -

The peace question needs no explanation - The Equal Rights movement is one to right the Equal rights as well as to mould public sentiment, for it is neither all color nor all sex -

All is, thy good old friends are in each & quite want to get hold of thee again here in a social and humanitarian way.

I may add that if thy dear Wife should come with thee let her stay at our house & go to a Galvanic battery with my wife - one Dr Armitage - his cures are wonderful - With many kind regards for thyself & the household I remain cordially thy friend

Alfred H Love

As the discussion of Man is to use what is good - all use is not to be abused. If Phillips' "Lost Arts" & "Lost Liberty" might always for a lecture also - If possible I will confer with the Committee
